- » *Scientifically grounded, creativity with humility*

Master of Arts – Human Resources Counselling – Supervision, Coaching and Organizational Counselling (Germany, 2015)

Bachelor of Intercultural Studies (Australia, 2002)

After finishing my film and video training at the Hessischer Rundfunk (ARD) in Germany and studying in Australia, I worked as an Executive Media Manager. For many years, I initiated, organized, directed and supervised international film projects in places like Hamburg, Mexico City, Rio de Janeiro, Hollywood, St. Petersburg, Stockholm, and Prague.

My main focus is related to conducting communication and employment application courses, developing competency, guiding team and supervisory meetings, diversity, management, and gender.

My aims are to facilitate personal growth, enhance team-building, provide effective mediation, and find answers to any problem by means of sustainable methods.

I operate professionally, well motivated and with integrity. I am passionate about people and providing solutions with creative originality and I understand that busy lives require deadlines to be met.

I am goal oriented, have a wealth of experience, and offer a person-centred and systemic approach.

Member of the DGSv (German Society of Supervision e.V.)
